SUMMARY

Junior full-stack web developer excited by collaborative problem solving, creating beautiful, responsive interfaces and building efficient, maintainable systems. Continually seeking to strengthen my abilities as a developer, I revel in learning new concepts and applying best practices in my code. My 5 year history in the retail industry has encouraged my sense of dedication, persistence and enthusiasm, as well as strong interpersonal and organizational skills. When not at my keyboard, I'm usually painting, downhill skateboarding or discovering a new passion.

PROJECTS

CrabbyApp - A real-time, multi-user chat application built with **React**, **WebSockets** and **Express**.

Bendito - Responsive, team-built food-ordering and order management application that communicates with clients via SMS. Coded admin page functionality, initialized database, contributed to responsiveness of menu navbar and implementing overall visual layout. Built with **JavaScript**, **PostgreSQL**, **Express**, **Twilio API**, **AJAX**, **jQuery** and **HTML/CSS/SASS** with **Bootstrap**.

Relephant - Single-page Twitter-clone that allows users to anonymously share posts (and shortened URLs). Created using **JavaScript**, **Express**, **Node.js**, **MongoDB**, **jQuery**, **AJAX** and **HTML/CSS** and hosted on **Heroku**.

TinyApp - Multi-page app enabling users to create and share shortened URLs. Coded following RESTful practices, using **Node.js**, **Express**, **HTML**, **EJS** templating and custom **CSS**.

EDUCATION

Lighthouse Labs, Vancouver — Web Development

JUL 2018-SEP 2018

- Intensive full-stack web development bootcamp
- 500+ hours of mentor-assisted project-based programming
- Building apps using HTML/CSS, JavaScript, SQL, React, Ruby and more

EXPERIENCE

Omer DeSerres, Vancouver

Assistant Manager MAR 2017-JUL 2018 (& APR 2016-AUG 2016)

- Demonstrated leadership in supervising daily operations in a variable environment
- Trained and supported staff across multiple departments in floor service, receiving and framing
- Interacted daily with customers, staff, management, head office, and suppliers

Merchandiser JUL 2014-MAR 2017

- Created compelling displays through analysis of inventory and sales data on a weekly basis
- Led full restructuring of store layout and assisted setup of new location
- Initiated development of consistent merchandising standards and store practices

Sales Associate OCT 2012-JUL 2014

- Encouraged customers to return by creating a welcoming atmosphere
- Utilized arts knowledge to assist customers in making informed decisions
- Operated POS system, maintained store stock and cleanliness

Environmental Youth Alliance, Vancouver

Youth Mentor JUL 2012-JUL 2013

- Guided youth at community-oriented events such as market plant-giveaways
- Prepared weekly informational materials and led activities to teach gardening skills
- Aided in maintenance of community garden space
